

Cw[®] Architectural Impressions[®]

You may be familiar with the terms “Cast Glass”, “Slump Glass” and “Kiln Glass” but Cw[®] would like you to get used to using the term “Thermally Formed Architectural Glass”. This best characterizes the meticulous care and attention we give to make your creative dreams and imagination come to life in what we call **Architectural Impressions[®]**.

Cw[®]'s **Architectural Impressions[®]** starts with the finest quality float glass which is fabricated to your specifications, positioned into the artistically carved mold and then thermally formed. Choose from one of our standard designs or a custom one that you create.

Cw[®] designs for custom applications, specifications for discerning architects, designers, glass design companies, from industrial to residential projects.

Cw[®] offers several standard designs to choose from or you can create one of your own custom **Architectural Impressions[®]** designs. The possibilities are endless.

Cw[®]'s **Architectural Impressions[®]** are thermally formed using 1/4", 3/8" or 1/2" thick Clear, Crystal Clear™ or Tinted Glass as your canvas to create the shower enclosure of your dreams. Thicker glass is available for other applications.

Architectural Impressions[®] is available on the following Models: 2400^A, 2500^A, 2600^A, 2700^A, 3000^A, 3200^A, 4000^A, 4500^A, 4600^A, 4700^A, 5000H, 5400H, 6000H, 7000H, 7800, 8800, 8000 and 9000 Series.

^A = Some Architectural Impressions[®] designs may be too deep for bi-pass enclosures.
